

A scatter plot showing the relationship between Sepal.Length (x-axis) and Petal.Length (y-axis) for three Iris species. The x-axis ranges from 4.5 to 8.0, and the y-axis ranges from 1.0 to 7.0. The legend indicates: Iris-Setosa (blue), Iris-Versicolor (orange), and Iris-Virginica (green). Iris-Setosa points are clustered at the bottom left (Petal.Length < 1.5). Iris-Versicolor points form a diagonal band across the middle. Iris-Virginica points are clustered at the top right (Petal.Length > 4.5).
